RESEARCH INTEREST	My research interest is in computational social science. In particular, I analyze online misinformation and bias using data science/AI approaches toward the trustworthy and fair online environment, which would drive people to enjoy over a long time. Below are the examples of my previous research, most of which I presented at top-tier CS conferences: <ul style="list-style-type: none">• Tackling online misinformation using machine learning (AAAI '19, FNDM)• Discovering social biases using machine learning and counterfactual analysis (WWW '18, ICWSM '20)• Identifying the role of social factors for user longevity (CSCW '16, WWW '17)
